INTEGRATED CLEAN ENERGY COMPANY

Readily Solutions

Powering the Future of Clean Energy

Enabling the transition to a smarter, cleaner future through integrated solutions across renewable energy, intelligent energy management, electric mobility, and sustainable infrastructure.

ABOUT READILY

Driving India's Clean Energy Transition

Readily Solutions is a technology-driven, integrated Clean Energy Company helping businesses, governments, and communities accelerate the transition towards a cleaner and more sustainable future. Through our two focused businesses — Readily Mobility and Readily Energy — we deliver integrated solutions across electric mobility, renewable energy, intelligent energy management, and sustainable infrastructure.

Readily Mobility

Electric mobility solutions spanning EV lifecycle management, OEM aftersales, charging & battery ecosystems, and EV refurbishment services.

Readily Energy

Renewable energy and intelligent energy management solutions, from project execution to energy asset management and sustainable infrastructure.

Our Focus

- Renewable Energy
- Electric Mobility
- Sustainable Infrastructure
- Intelligent Energy Management

One integrated partner across the entire clean-energy value chain — from strategy to execution to lifecycle support.

Vision

To become India's most trusted technology-driven Clean Energy Company, enabling a cleaner, smarter, and sustainable future through innovation, integration, and execution excellence.

Mission

To accelerate the adoption of sustainable energy by delivering integrated solutions across electric mobility, renewable energy, intelligent energy management, and infrastructure — creating long-term value for customers, partners, communities, and shareholders.

PURPOSE

Vision & Mission

readily

WHY READILY

From electric mobility and renewable energy to sustainable infrastructure, our end-to-end capabilities help organizations accelerate their transition towards a cleaner, more resilient future.

1 Integrated Green Energy Solutions

One partner for electric mobility, renewable energy, energy management, and sustainable infrastructure.

2 Technology-Driven Innovation

Leveraging intelligent technologies to optimize energy utilization, improve efficiency, and create smarter energy ecosystems.

3 Execution Excellence

Nationwide capabilities backed by operational expertise, skilled resources, and proven delivery models.

Building a Smarter, Greener Future

OUR IMPACT

Driving India's Clean Energy Transition

Renewable Energy

Delivering renewable energy solutions that create long-term environmental and business value.

Electric Mobility

Enabling reliable EV operations through comprehensive lifecycle and aftersales services.

Sustainable Infrastructure

Building resilient infrastructure that supports India's clean energy transition.

Technology & Innovation

Leveraging digital technologies to optimize energy performance and operational efficiency.

Renewable Energy Solutions

Integrated renewable energy solutions that help organizations reduce energy costs, improve operational efficiency, and achieve their sustainability goals — from concept and design to implementation and ongoing support.

WHAT'S INCLUDED

Project Assessment — site & energy assessment

System Design — customized energy solution

Execution — complete implementation

Grid Integration — connection & commissioning

Lifecycle Support — operations & maintenance

KEY FEATURES

Customized Solutions
tailored to business needs

Technology-Driven
efficient project delivery

Scalable Infrastructure
built for long-term growth

Optimization
maximized energy efficiency

WHAT'S INCLUDED

Performance Monitoring — real-time monitoring

Asset Inspection — preventive assessments

Maintenance — planned maintenance

Analytics — data-driven optimization

Lifecycle Management — long-term reliability

KEY FEATURES

Real-Time Monitoring
continuous visibility

Predictive Maintenance
reduced downtime

Data-Driven Insights
smarter decisions

Compliance Management
regulatory adherence

Energy Asset Management

Comprehensive Energy Asset Management that maximizes the performance, reliability, and lifecycle value of renewable energy assets through technology-enabled monitoring, proactive maintenance, and performance optimization.

Sustainable Infrastructure

Resilient, energy-efficient, future-ready infrastructure — integrating renewable energy, intelligent technologies, and sustainable engineering practices for long-term environmental, operational, and economic value.

WHAT'S INCLUDED

Planning — sustainable project strategy

Engineering — future-ready design

Execution — end-to-end implementation

Integration — renewable energy incorporation

Lifecycle Support — operations & optimization

KEY FEATURES

Sustainable Design
environmentally responsible

Integrated Execution
end-to-end delivery

Energy Efficiency
optimized utilization

Scalable Infrastructure
built for growth

EV Lifecycle Management

Comprehensive support for electric vehicles from deployment to long-term operations — combining technology, technical expertise, and nationwide service capabilities to maximize uptime and performance.

WHAT'S INCLUDED

OEM Aftersales — service support

Preventive Maintenance — servicing & inspections

Technical Support — diagnostics & repair

Battery Management — monitoring & optimization

Lifecycle Support — operational assistance

KEY FEATURES

Complete Lifecycle Support
every stage covered

Nationwide Network
pan-India coverage

Technology-Enabled
smarter service delivery

Maximum Uptime
reduced downtime

Charging & Battery Ecosystems

Integrated charging and battery ecosystem solutions — from charging infrastructure and battery swapping to intelligent energy integration — for reliable, scalable, future-ready EV ecosystems.

WHAT'S INCLUDED

Infrastructure — EV charging deployment

Battery — battery swapping & support

Energy Integration — smart power

Operations — monitoring & maintenance

Support — operational services

KEY FEATURES

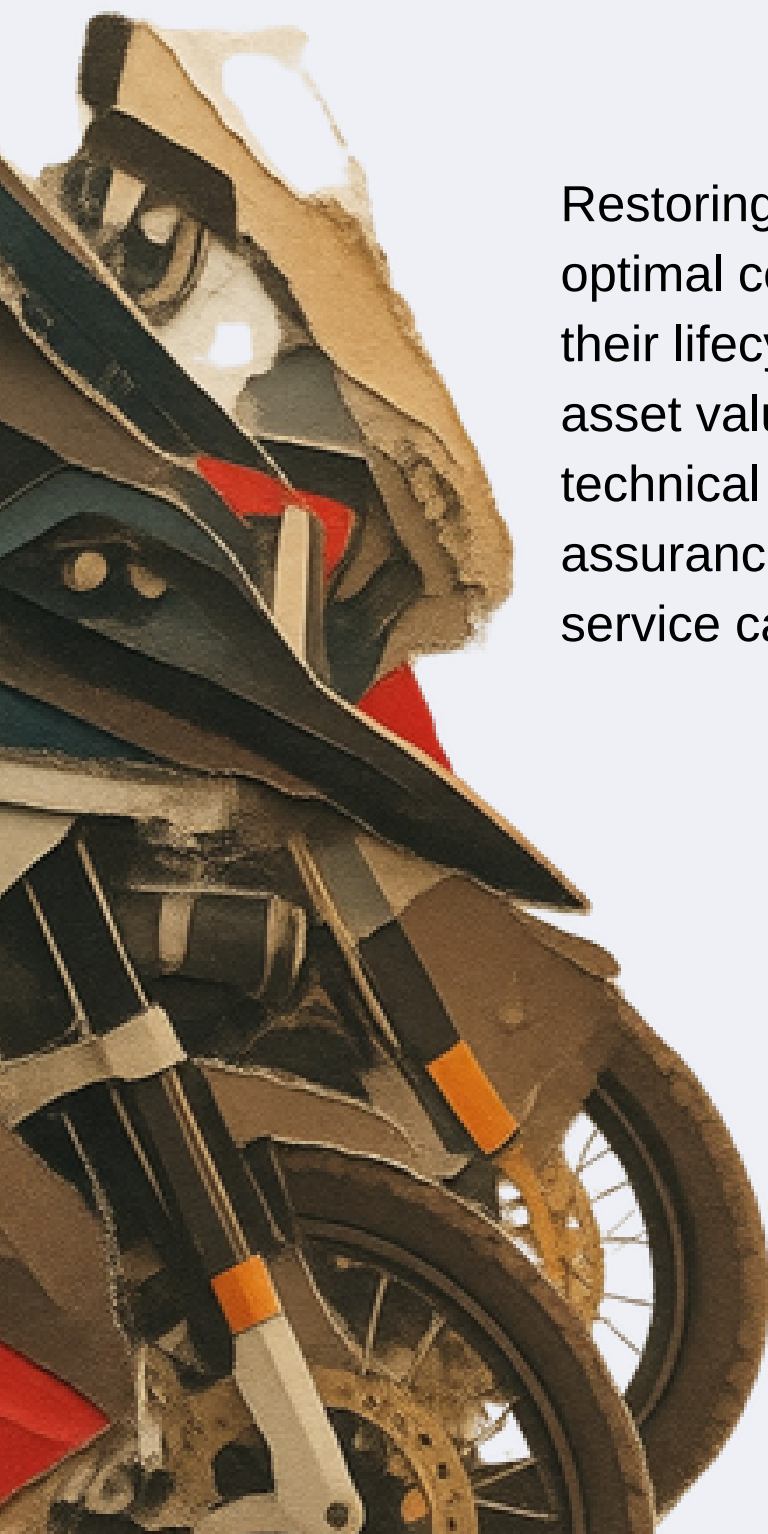

Smart Charging
infrastructure deployment

Battery Optimization
enhanced lifecycle

Energy Management
optimized utilization

Scalable Infrastructure
built for expansion

Fleet & OEM Solutions — EV Refurbishment

Restoring electric vehicles to optimal condition while extending their lifecycle and maximizing asset value — combining technical expertise, quality assurance, and nationwide service capabilities.

readilysolutions.com

WHAT'S INCLUDED

Vehicle Inspection — health assessment

Battery Evaluation — performance & safety checks

Component Refurbishment — repair & replacement

Performance Testing — functional & quality validation

Delivery Support — ready-for-operation handover

KEY FEATURES

Comprehensive Refurbishment
end-to-end restoration

Certified Quality Checks
performance & safety assurance

Extended Vehicle Life
improved asset utilization

Sustainable Mobility
supporting circular economy

readily

HOW WE WORK

From Strategy to Sustainable Performance

Consultation

We evaluate your energy requirements, site conditions, and sustainability objectives to develop the right strategy.

Solution Design

Our experts design a customized, scalable solution backed by engineering expertise and industry best practices.

Execution

From procurement and installation to commissioning, we deliver projects with quality, safety, and excellence.

Operations

We provide ongoing monitoring, maintenance, and performance optimization to maximize long-term efficiency.

OUR PROJECTS

Creating Sustainable Impact

Through integrated green energy solutions, we help businesses, communities, and institutions accelerate their clean energy journey while creating long-term value.

PROJECT EXECUTION SUPPORT · Pan-India

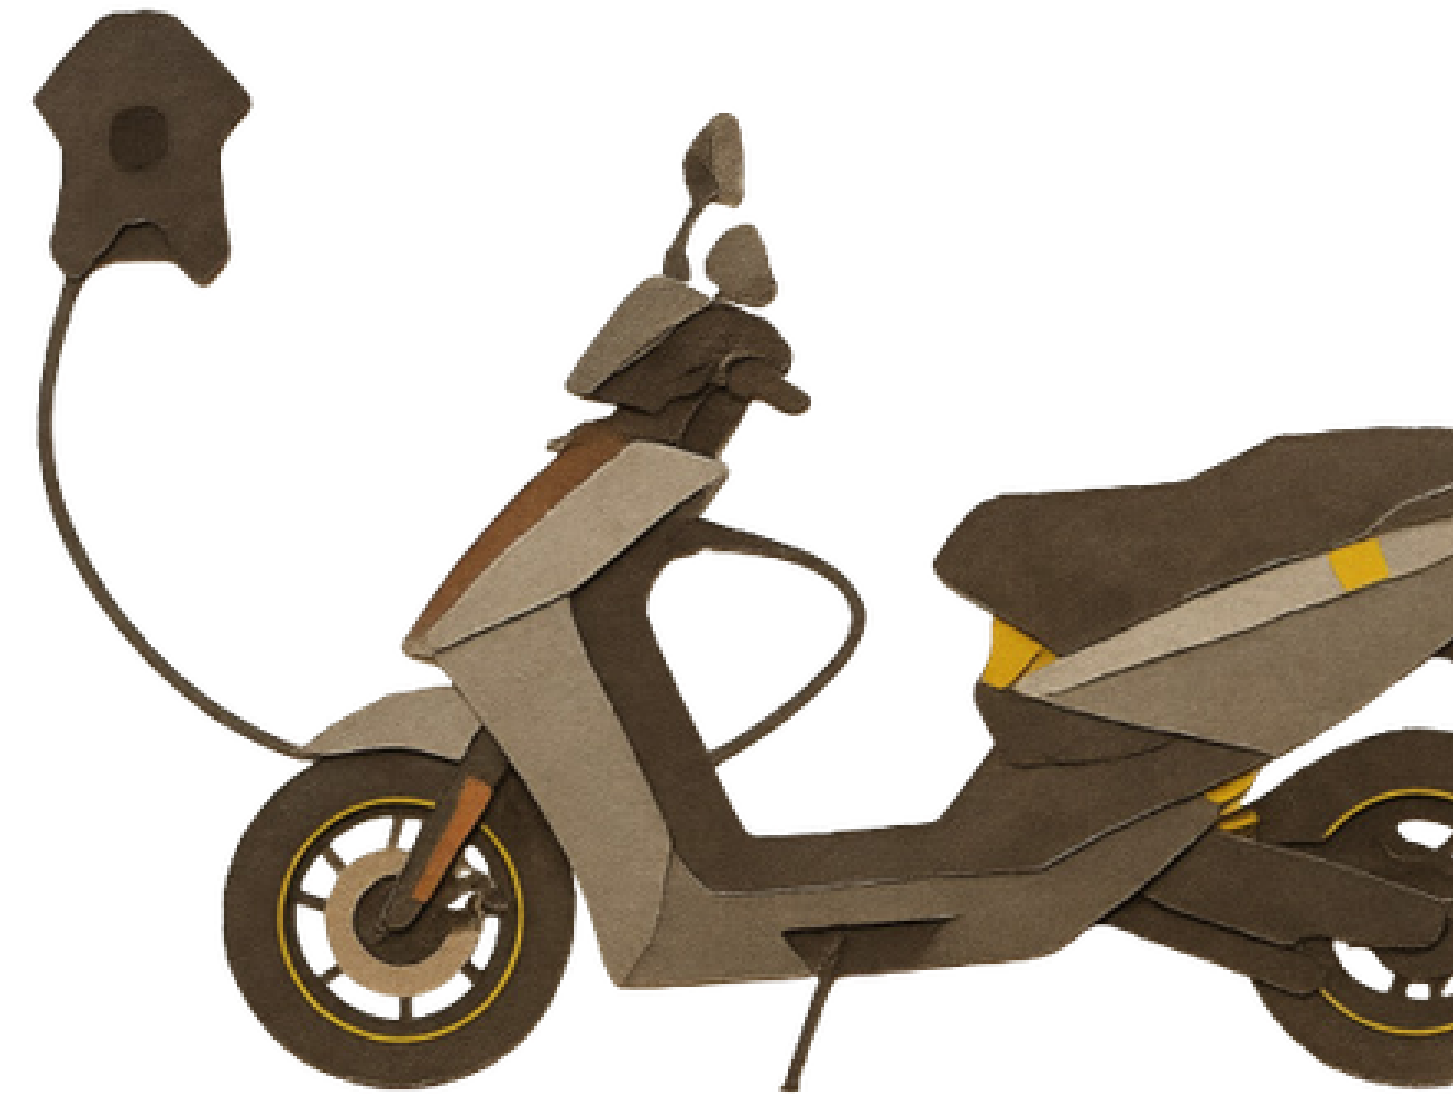

Renewable Energy Infrastructure

- End-to-end execution support, including material verification, logistics coordination, and site delivery.

MOBILITY SOLUTIONS · Pan-India

EV Lifecycle Support

- Enabling India's growing electric mobility ecosystem with aftersales support, field service, and lifecycle management.

LET'S BUILD THE FUTURE OF CLEAN ENERGY TOGETHER

Partner With Readily Solutions

Whether you're transitioning to electric mobility, investing in renewable energy, or developing sustainable infrastructure, Readily Solutions delivers integrated solutions that power long-term growth and lasting impact.
